

Guardian Workplace Solutions

Powered by Brivo. Enhanced by Savance.

Guardian Protection delivers powerful workplace safety and efficiency solutions – combining Brivo’s cloud-based access control with Savance Workplace’s advanced automation tools. Together, we help you protect people, property, and productivity with one integrated platform.

SMARTER, SAFER, WORKPLACE SOLUTIONS + how they integrate with Brivo

VISITOR MANAGEMENT

Streamline guest check-in with Savance Workplace’s customizable visitor tools, seamlessly integrated with Brivo’s secure access system.

Revolving temporary visitor badges can be assigned, allowing for visitors to be tracked for audit purposes or emergency mustering. Badges can also be printed and dynamically activated to grant access to certain security groups for contractors

EMERGENCY MUSTERING

Account for every employee, contractor, and visitor in real time during an emergency – powered by Guardian’s integration of Brivo access data with Savance mustering tools.

Savance automatically keeps track of people as they pass in and out of a door, and uses a mobile tablet to 1) quickly account for people at muster stations; 2) identify missing staff, visitors, and contractors; and 3) pinpoint a missing person’s last location.

ELECTRONIC IN/OUT BOARD

Automatically update staff status as they enter or exit secured doors, keeping teams accountable and communication clear.

When staff come and go through the doors, their status is automatically updated to “In” or “Out” for communication or accountability purposes.

DIGITAL STATUS BOARDS

Display real-time status and critical information on large-format screens, fed directly from Brivo credentials and Savance Workplace data.

Display the in/out status of staff or visitors on large format display boards (32”–55”+), utilizing information from door swipes or from updates using a mobile device, app, web browser, or kiosk.

MASS NOTIFICATIONS & ALERTS

Send targeted alerts to employees or visitors based on their badge scans and real-time location – ensuring the right people get the right message.

Send mass notifications and alerts only to people who are either onsite or offsite based on their badge scans – or use badge scans to target notifications by location.

TIME & ATTENDANCE

Track staff attendance automatically through Brivo badge swipes, and export data to ADP, Paychex, or your HR system via Savance integration.

As credentials are swiped at a door, or at a dedicated kiosk using a badge, staff attendance is automatically tracked, and can be exported to Paychex, ADP, or to the company’s own HR system.
