

Smarter Video. Smarter Business.

AI-powered video surveillance with POS integration and remote access.

Unlock real-time insights, monitor multiple locations, and streamline operations—all from a single cloud-connected platform.

BOOSTING FEATURES

- > **POS Integration**
Verify refunds, voids, and suspicious activity with synced video + transaction data.
- > **Retail Analytics**
Understand customer behavior—even without a checkout event.
- > **Smart Alerts & Filters**
Get notified for loitering, line crossing, or intrusion—then quickly find footage using details like color or vehicle type.
- > **Multi-Site Access**
Monitor and manage all your locations in one dashboard—no VPNs needed.

AI Intelligence. No New Cameras Required.

Deploy OpenEye analytics using your existing cameras—no rip-and-replace. Get real-time alerts, searchable events, and smarter security from the start.

WHAT OUR CAMERAS CAN DETECT

PEOPLE &
VEHICLES

LOITERING &
LINE CROSSING

INTRUSION
