

Protect Your Business with Proactive Video Surveillance

Guardian Protection's professional video monitoring services provide 24/7 surveillance and real-time response to threats, keeping your business safer than ever.

HOW IT WORKS

AI-Powered Detection

Our system analyzes live video to identify real threats, reducing false alarms.

Live Agent Response

Trained security professionals monitor your business in real time, ready to take action.

Instant Alerts & Intervention

If suspicious activity is detected, we can alert authorities, notify key personnel, or activate deterrents.

KEY BENEFITS

Fewer False Alarms

Real-time video verification eliminates false alarms.

Crime Prevention

Deter threats before they escalate.

24/7 Professional Monitoring

Security experts always watching.

Seamless Integration

Works with most existing camera systems.

Custom Security Solutions

Tailored monitoring to fit your business needs.

Proactive Video Surveillance: Pricing & Hardware

Flexible pricing and equipment options for tailored video surveillance.

MONTHLY PRICING SUMMARY*

Camera Type	Use Case	Monthly Price
Indoor Detection (PVS01)	Indoor Surveillance	\$20/camera/month
Outdoor Detection (PVS02)	Secured Areas	\$50/camera/month
Outdoor Detection (PVS03)	Unsecured Areas	\$50/camera/month
Video Assist (PVS04)	Supplemental Views	\$10/camera/month

*Promotional pricing applies to systems with less than 16 connected cameras. Pricing can be customized for larger systems.

HARDWARE

Model	Description	Key Features
CKB416V1 16CH Standard Bridge	Transmits camera or NVR analytic triggers to monitoring center	Dual network, 1 output relay, IP Audio, panel arm/disarm input
CKB312V2 12CH Standard Bridge	Transmits camera or NVR analytic triggers to monitoring center	Single network, 12 zone inputs, 5 output relays, IP Audio, panel arm/disarm input
CKTAI612 12CH AI Bridge	Adds human and vehicle detection for cameras without on-board analytics	Dual network, human/vehicle detection

Note: OpenEye is the preferred PVS platform, as only a standard bridge is needed. All other video platforms will require an AI bridge.

ADDITIONAL EQUIPMENT/SERVICES AVAILABLE

Outdoor - rated IP speakers & strobe lights

Schedule - based or triggered automated voice deterrents

- Customizable & randomized messages for realism
