

FOOD AND BEVERAGE SECURITY SOLUTIONS

From grab-and-go markets to multi-chain restaurants, food and beverage businesses face similar challenges with protecting temperature-sensitive inventory, managing employee access and monitoring multiple locations. Guardian Protection has the technology to address all this and more with our unified commercial security platform.

MONITORING TEMPERATURE-SENSITIVE ASSETS

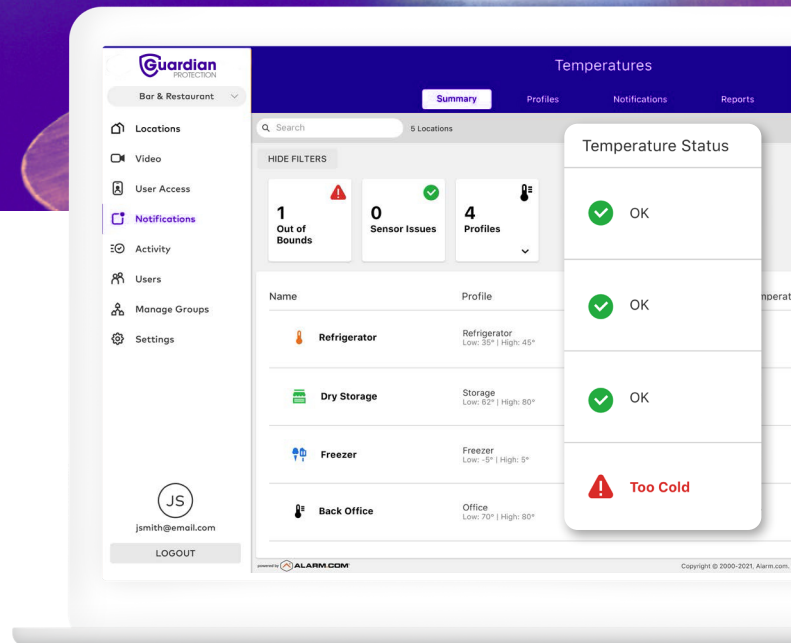

Keep an eye on storage areas that contain temperature-sensitive items and take action right away to prevent loss.

KEEPING TABS ON OCCUPANCY AND WAIT TIMES

Rely on the most reliable system to intelligently manage crowds, monitor customer foot traffic and track average wait times.

MANAGING EMPLOYEE ACCESS

Explore more efficient and effective ways to manage numerous employees accessing multiple locations.

On average, food and beverage businesses have a total of 16 areas using temperature monitoring systems that are checked daily.¹

Our 24/7 monitoring, real-time alerts, and historical temperature reports offer an ideal service for single and multi-location business properties.

A SOLUTION FOR ANY APPLICATION

SMARTER BUSINESS TEMPERATURE MONITORING

Prevent inventory loss due to a power outage or freezer doors left ajar and take action when temperature sensors alert you in real-time of temperature changes.

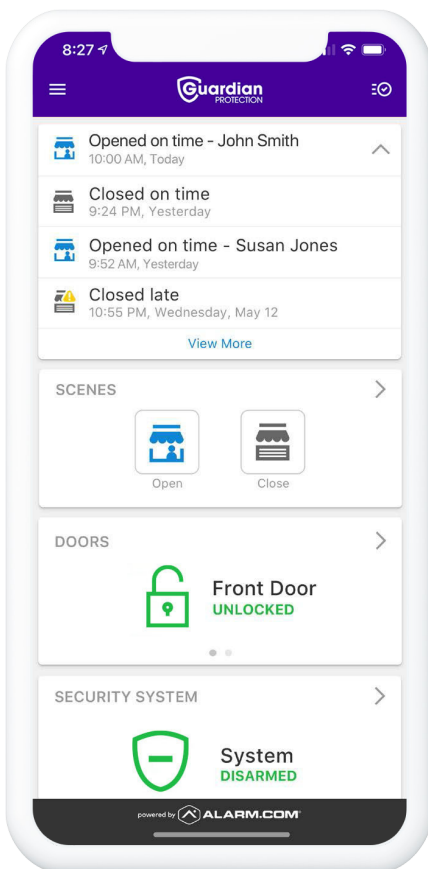

OPTIMIZE YOUR OPERATIONS

With Business Activity Analytics, keep tabs on occupancy numbers and set capacity alerts to manage staff count and keep people safe.

EMPLOYEE MANAGEMENT

Employees opening late and closing early costs businesses over \$500 per year.² Bulk manage employee access to save time and increase consistency.

EYES ON EVERY LOCATION

AN ALL-IN-ONE SOLUTION

Keep track of it all on a single, intuitive interface with the Guardian EdgePremium Dashboard and view footage of your properties from anywhere, anytime with the easy-to-use mobile app.

YOU'RE IN GOOD COMPANY

Businesses of all sizes and from all industries rely on Guardian Protection technology to protect properties, people, inventory, and more.

Among food and beverage businesses, 47% watch live video feeds on-site using a monitor and 36% remotely watch live views using a smartphone or tablet.³

Rely on commercial video surveillance to view live footage of multiple locations from anywhere, anytime on the Guardian EdgePremium Dashboard.
